Sorry, Valerie, I had looked only on the first few pages of the plan (my printing problem).

I have 1 suggestion and 1 correction:

1. The title 'Biomarkers of exposure', Tricker, should explicitly spell out '... PI, list'. Otherwise we are likely to get very confused.
2. The project leader for the 'Characterization of ETS in the US workplace' has been shifted yesterday from Kinser to Lau (resource balance).

I also strongly suggest to include the project numbers in this and all other project lists.

Regards,
Roger

Valerie,

I looked through this and have nothing to add. I have asked Robin to check the details of her 2 projects in the list being up-to-date. She will come back to you if she has comments.

Roger

Dear all:
Attached for your review is the preliminary draft of our 2001 plan "timelines" being prepared for the presentation to the OBT (Feb 1).

Loreen and I need to finalize this document this week; if you have feedback/changes please let us know as soon as possible.

Thanks,
Valerie
